BALTIMORE—WEDNESDAY, SEPTEMBER 17, 1828.

The Drawing of Yesterday.

The Official list of the drawing of the MARYLAND STATE LOTTERY, No. 5 for 1828, which took place yesterday, will be found on the next page. The capital prize (2000 DOLLS.) came out to 2550, an Even number—consequently, agreeably to the scheme, being on the Odd and Even System, all tickets ending with Even numbers (2, 4, 6, 8 or 0) are each entitled to Two Dollars; and in addition to any other prize which they may have drawn.

Prizes should be sent on without delay, either for payment or for renewal in the next lottery; the scheme of which is superior to any ever yet presented, in its advantages to the adventurer—the risk being very trifling and the Prizes Brilliant.—See the Scheme on 4th page.

The Next Lottery—22d of October.

SCHEME NO. 6, FOR 1828, OF THE

Grand State Lottery of Maryland,

being the first to be drawn in this State, will be found on the 4th page of this day's Register. It is brought out under authority of the Act of Assembly, and is to be drawn by a NEW AND IMPROVED MODE, secured by Letters Patent under seal of the United States. On examination, adventurers will notice the very small risk in this Lottery, and that for a great portion of it. (the 3 first Sub-schemes,) there will be NO RISK AT ALL; thus giving the chance of obtaining a Capital Prize without the possibility of drawing a Blank during that period. THE DRAWING will take place in the City of Baltimore on

Wednesday, the 22d October,

(Next Month,) under the superintendence of the Commissioners appointed by the GOVERNOR AND COUNCIL of State

Although extra time is thus allowed for distant orders, yet we would advise that Orders be sent on without delay, to prevent disappointment, as the demand for the tickets will undoubtedly be great in consequence of the superior advantages of the scheme. The Capitals too are unusually numerous, there being besides the

Capital Prize of 10,000 dollars,

no less than 4 of 2000—1 of 3000—4 of 1000 dolls. &c. &c. THE MODE OF DRAWING we wish to be particularly noticed—its superiority over the old mode is very great; and we have taken pains to describe it so much at large, that it will be comprehended by the most ordinary capacity.—Throughout the entire scheme, there are more Prizes than Blanks, and in fact as we have stated above, during the drawing of the 3 first schemes, which compose part of the whole series, there are NO BLANKS at all!

For the information of adventurers, the Official list of the drawing will be published in the Register which will be forwarded gratis to those who may request it.

BANK OF THE UNITED STATES.

At the meeting of the stockholders of the Bank of the United States held on the 1st inst. Messrs. Charles Chauncey, Alexander Henry, Cadwallader Evans, Charles Jared Ingersoll, James Ronaldson, and James C. Fisher, were appointed a committee to examine the statements laid on the table by the President. The meeting then adjourned to 9 o'clock the next day.

The next morning the committee, through their Chairman, Mr. Chauncey, made a report responsive to the address of the President,—embracing a statement of the condition of the bank in August 1828, and a comparison of its present condition with its condition in 1822. The report concluded with resolutions approving of the administration of the bank in every thing general and particular, which resolutions were adopted without a dissenting voice.

The whole number of persons present at the meeting, including the committee and some members of the Board of Directors, was about twenty-five.

It is stated in the report, that the profits of the last year, exceeded those of 1822, in the sum of \$823,000; and were greater by \$979,000, than the average of profits for the three years preceding 1822.

The specie on hand on the 1st of August last, was 6,593,000,—circulation 13,000,000.—Public deposits 6,563,000.—Private do. 7,301,000.—Funded Debt held by the Bank 16,930,000.—Discounts 37,000,000.—Contingent Fund 4,300,000.—Suspended Debt 7,109,000.—Phil. Gaz.

M. De Bressen, appointed by the French government to establish Commercial relations with the South American States, arrived here yesterday in the packet ship Caledonia from Liverpool. He is accompanied by the Duke De Montebello a son of the late General Lannes, Marshal of France, and comes with the highest recommendations from Gen. Lafayette. They stop but a short time in the United States and we understand proceed to Mexico in a French frigate which is to call at Norfolk for them.

The annual income of the Archbishop of Canterbury, who lately died in England was no less than 25,000*l.* sterling, or 111,000 dollars.

Miscellaneous Epitome.

Trade to the United States.—It appears by the last of arrivals for the quarter ending on Saturday last, that there is a considerable falling off in the number of arrivals from America, in the number compared with the corresponding quarter of last year. In the former year, the number of arrivals from the United States in the June quarter was 205; and in the present only 94, making a deficiency in the space of three months, of not less than 111 vessels.—*Liverpool paper.*

At a meeting of the Roman Catholic Association in Dublin, on the 21st of July, Mr. O'Connell read a letter addressed to himself forwarding a Bill of Exchange for £182 8s 8d from Philadelphia, to the Catholic Rent Fund, and requesting that the subscribers be admitted members of the Association. He made a motion to that effect, and then addressed the meeting at some length. In the course of his remarks, he observed that he had communications from Boston and other parts of America, and that there was not a town or village throughout the United States but were likely to contribute.

Lead Mines.—The town of Galena, at the Lead Mines in Illinois, was commenced in 1826. We learn from the journal printed at that place, that it now has a population of near seven hundred. There are 42 stores and warehouses; 22 porter cellars and groceries; a goodly number of lawyers and physicians, and a general assortment of mechanics, &c. The number of dwelling-houses and stores is 195; and 46 new buildings are going up. There have been 75 steamboat and 33 keel boat arrivals since 1st March. About eight million pounds of lead were exported during the year ending 1st June last. The population in the neighbourhood of the mines, is estimated at 10,000.

Authentic Anecdote.—When, during the late war, Admiral Warren was lying in the Chesapeake, Captain Smith was sent by Commodore Stewart, then at Norfolk, to negotiate an exchange of prisoners. The news had just arrived of the capture of the *Java*, and the Admiral, speaking of that event, asked Captain Smith how it happened that our frigates were so successful in taking theirs.—Capt. S. answered that he knew no reason for it unless it was that we fought better. "No," said the Admiral, "that cannot be; but the reason is, that two-thirds of your crews are British seamen." "Then," replied Captain Smith, "the other third, being Americans, makes the whole difference." The Admiral attempted no further explanations or argument on the knotty subject.

We doubt if the records of wit can produce a more happy repartee. It was prompt and sharp; and, at the same time, goes to the very heart and marrow of the question. It is one of those pushes that can neither be parried nor returned. It closed the game; the Admiral had not another move.

French Theatre in London.—We are informed by the French papers, that a permanent company of French actors is to be established in London, and that one individual has subscribed £100,000, towards the project.

Notice to Distant Adventurers.

Strangers and others are respectfully reminded, in order to prevent mistakes, that COHEN'S OFFICE in the City of Baltimore is at

No. 114, Market-street,

and in calling, sending or directing letters, they ought to be particular. We make this special notice in consequence of there being an Office in Baltimore of a name, in appearance on paper, somewhat similar—so much so that many mistakes have been made.

No. 2550, an Even Number,

Having drawn the Capital Prize of TWO THOUSAND DOLLARS, agreeably to the Scheme, every Even Number in the Lottery is entitled to a Prize of Two DOLLARS, and in addition to whatever sum any of them may have drawn besides.

☞ All Tickets with Numbers ending 2, 4, 6, 8, or 0, are those entitled to the Two Dollar Prizes.

☞ All Tickets ending with 1, 3, 5, 7, or 9, and not to be found amongst the above, are Blanks.

THOMAS SPICER, Clerk to the Commissioners.

NOTICE.

Strangers and others are respectfully reminded, (in order to prevent mistakes,) that COHEN'S OFFICE, BALTIMORE, is at

No. 114, Market-st.

And in calling, sending or directing, they will be particular in noticing the same.

It will be noticed that many Tickets have obtained TWO PRIZES EACH!—for example: No. 6836, (see list above) having drawn Fifty dollars, and being an Even Number, is entitled to a prize of Two dollars also; therefore, No. 6836 will receive Fifty-two dollars, &c. Again, No. 1440, (see list above,) having drawn Ten dollars, and being an Even Number, is entitled also to a Two dollar prize; consequently, No. 1440 will receive Twelve dollars, and so on.

Lottery No. 6 for 1828, of the Grand State Lottery of Maryland,

By Authority of the Legislature, and to be drawn by an Improved Mode, secured by Letters Patent under the Great Seal of the

UNITED STATES OF AMERICA.

GOVERNOR AND COUNCIL OF STATE.

MODE OF DRAWING—(Secured by Letters Patent under Seal of the United States:)

The wheel will contain 20,000 Numbers, (1 to 20,000 inclusive,) corresponding with the number of Tickets in the Lottery. On the drawing of the First Sub-scheme, the terminating figure of the first drawn number from the wheel will determine the 2000 prizes of \$4 of that Scheme—then to decide the remainder of the prizes of that Scheme, there will be drawn from another wheel containing exclusively all the Numbers in the lottery ending with the terminating figure of such first drawn, 106 numbers; to the first of which, will be awarded the prize of 2000 dolls.—to the next, will be awarded the prize of 1000 dolls.—to the 3d drawn number will be awarded the 500 dollar prize; and so on till the 106 superior prizes of the first Sub-scheme are all distributed.

On the drawing of the Second Sub-scheme, the first drawn number of a termination different from that of the first drawn of the First scheme will determine the 2000 prizes of \$4—then from a wheel containing exclusively all the numbers in the lottery, ending with such terminating figure, 106 numbers will be drawn;—to the first of which the prize of \$2000 will be awarded—to the second, the \$1000 prize will be awarded;—to the third, the \$500 prize will be awarded, and so on till the 106 superior prizes of the second Sub-scheme are all distributed.

On the drawing of the Third Sub-scheme, the first number of a termination different from those of the 1st and 2d Schemes, will determine the 2000 prizes of \$4—then from a wheel exclusively containing all the numbers in the lottery of such terminating figure, the 106 superior prizes of the third Sub-scheme will be awarded in the same manner as on the two preceding.

On the drawing of the Fourth Sub-scheme, the wheel will contain all the remaining undecided Numbers in the lottery, (14,000) being those composed of the terminations not drawn in either of the previous Sub-schemes—the other wheel will contain the prizes above the denomination of Five dollars, and the drawing to progress in the usual manner. The 4000 prizes of Five dollars will be awarded to the tickets, the numbers of which end with the terminating figure of either of the two first drawn numbers of different terminations.

In this Lottery, a Ticket drawing a superior prize will not be restricted from drawing an inferior one also.

The Drawing will take place in the City of Baltimore, on Wednesday, the 22d NEXT MONTH, (October,) of the First Sub-scheme—with the remaining Schemes, there will be no unnecessary delay.
